Comments:

- * Employees interests/behavior can change over time.
- * Scenarios are plentiful in this dataset

details (folder):

- * details of employees

logon.csv

- * Fields: id, date, user, pc, activity (Logon/Logoff)
- * some logons have been removed from the dataset, to mimic a "messy" scenario
- * Each user has an assigned machine, but can share others
- * 100 machines shared (physically shared) by some of the users in addition to their assigned PC.
- * Some logons occur after-hours
- *Note: Screen unlocks are recorded as logons. Screen locks are not recorded.

device.csv

- * Fields: id, date, user, pc, activity (connect/disconnect)
- * Some users use a portable zip drive
- * Some connect(s) may be missing disconnect(s), since machine may be turned off without a proper disconnect.

http.csv

- * Fields: id, date, user, pc, url, content
- * content has a set of key words which relate to the site.
- * Per-usual, webpages can have multiple topics
- * Websites have been randomly generated, some may be real sites, others not. Exercise care when visiting websites.

file.csv

Fields: id, date, user, pc, filename, content

- * Each item represents an item copied to a thumb-drive
- * Files are summarized by keywords of the "content"
